

Free Infant, Toddler, Preschool Screenings!!

Do you ever wonder if your child is doing the things that he/she should be at this age?

Your school district is planning to have an at-risk classroom next year. If you complete this screening process, your child may be placed on the waitlist that will be used to fill this classroom next fall.

To request a screening, please fill out the form below and return it to the grade school to request the proper packet for your 0-5 year-old child(ren). VASE will send a packet for you to complete and mail back. The screening team will review the information from the packet and contact you with the recommendations in about 2-3 weeks from the time that your packet is returned to VASE. If there are any concerns or questions about your child's skills, VASE will provide the appropriate evaluations for your child who is 3-5 years old OR help you make contact with Child and Family Connections to request an evaluation for your child who is 0-3 years old. If your child needs services, both VASE and Child and Family Connections can provide the services for which your child qualifies.

You may call VASE Early Childhood at 443-8273 ext. 2 or return the form below to the grade school to request a screening packet. Or you may go to <http://asqonline.com/family/384-screening-family-access-open-asq-3-english/start> to complete a questionnaire online. VASE may e-mail you some other forms to complete so that we are able to get an accurate picture of your child's current developmental level.
